Companionship

Social and community activities foster connection and inclusion. Our carefully matched, trusted caregivers offer social interaction to improve physical and mental well-being.

Meal Preparation

A nutritious diet comes with many health benefits. Our caregivers love to prepare delicious meals, including specific cultural dishes if requested.

Respite Care

It takes time and energy to care for a loved one. Respite care offers temporary relief so you can recharge and enjoy time with your loved ones.

Homemaking

We offer light housekeeping services to help our clients with daily activities. This way, you, or your loved one, can stay at home in a safe and clean environment.

Around-the-Clock

Whether it's 3:00pm in the afternoon or 3:00am in the middle of the night, we support clients who need care any time. Services can be scheduled daily, weekly, or monthly.

Personal Care

From bathing to shaving, we design personal in-home care to support day-to-day independence.

End-of-Life Care

Everyone deserves comfort, quality of life, and respect for personal treatment decisions and cultural or spiritual concerns. We support our clients as well as their family.

Home Nursing

For optimal health, our Registered Nurses and Enrolled Nurses help prevent illness and increase comfort at home.

Yes, we provide what you need, but our real specialty is our philosophy of care centred around **Making Lives Better®**.

It starts with one question:

“What did you use to love doing that you no longer do?”

It means providing our clients with the choice to pursue interests, hobbies, and passions that might have gotten lost amid busy schedules, health concerns, or other distractions.
